**Material** Oil

**Size**

**Price**

Basic Dynamic Symmetry Armature for panels with aspect ratio close to the Golden Mean of 1.618.. such as 10x16. The Golden Mean is defined by the proportion  $(a+b)/a = a/b$  and can be shown to be the number 1.618... where ... indicates continuing forever. It is denoted PHI. So the Golden Rectangle is also known as the PHI rectangle.
